## DETAILED ACTION

### EXAMINER'S AMENDMENT

This Office action is responsive to the amendment filed on May 02, 2003.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: cancel claim **9** as being directed to a non-elected invention (without traverse).

1. Claims 2-5 and 7-8 are allowed and renumbered as 1-6, respectively.
2. The following is an examiner's statement of reasons for allowance:

The prior art taken either singly or in combination fails to anticipate or fairly suggest: a) the erect portions being fixed in a direction perpendicular to the base and fixed with respect to the outer lid in a rotational direction when the outer lid is engaged with the carrier base, as recited in independent claims 2 and 5; b) a projection being formed on a surface of the outer lid to be opposed to the inner lid, wherein the projection is on a rotation axis of the outer lid, as recited in independent claim 7; and c) a projection being formed on a surface of the inner lid to be opposed to the outer lid, wherein the projection is on a rotation axis of the outer lid, as recited in independent claim 8; especially when these limitations are considered within the specific combination claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
